

I listen to K-LOVE locally on 105.5, 89.01 and 100.0 FM daily and is a part of my radio listening throughout the day. If this is displaced by an LPFM with other programming you would lose a radio listener all together. I am served by K-LOVE with positive encouraging music and new casts I can trust. This service is non biased and fair to all who listen. It is listener supported and run on donations. I feel this is an important service that the people want to see and keep on the air with support. Please don't let LPFM broadcasters take KLOVE off the air.  
Thank you
